

ROUND 2: PRACTICAL CHALLENGE -

1. Given below is a web design which needs to be revamped to a new fresh design. Create a static mockup design in any software/tool you prefer (Photoshop, illustrator, CRD, sketch etc) to give it a new modern look:
 - Provided it should have the same sections as given. contents, links will remain the same. (You can use lorem ipsum for paragraphs)
 - The color combination, fonts, images, theming and all other things can be changed. All of your choice.
 - Sections: a) Header with logo and menu links b) Textual banner full screen with carousel c) Features d) Footer [You can avoid the works section and the tweet section below it]

2. Create the following design using HTML/CSS/JS:

- Your design should look exactly like the below image
- You can use any framework, plugin of your choice
- You can use any font you like but should somewhat be similar to what it's below
- You can use any image of your choice
- Your design should be responsive
- Functionalities like slider, hover effects, responsive menu should work
